The North Jersey Manufacturing Partnership is a business-led collaborative of manufacturers and public partners working together to resolve common workforce, economic, and education challenges to strengthen the manufacturing sector in northern New Jersey. The goal of the partnership is to connect workers with well-paying careers by building a strong, diverse talent pipeline, exposing students to career pathways and opportunities, and leading efforts to identify and address skills gaps. The Partnership provides an opportunity for industry leaders to work proactively to overcome barriers to the industry’s growth and ongoing success.

Key Components:

- Led by manufacturers to ensure the system is truly demand-driven and yields better outcomes
- Aligns resources at one shared table with education, workforce and economic development partners and others to collaboratively design responsive solutions to meet the needs of manufacturers
- Focused on a single industry to allow manufacturers to engage directly with industry peers across traditional boundaries
- Driven by manufacturers’ priorities that go beyond basic workplace skill needs to building a sustainable talent pipeline, connecting to millennials and diving deeply into technical or supply chain needs
- Established regionally to address the dynamics of local economies and identify common issues, challenges and opportunities across employers

Benefits to Manufacturers:

- Reduces system duplication to create efficiencies
- Changes the system based on manufacturers’ business needs
- Helps fill positions with skilled workers
- Develops career pathways to ensure a pipeline of future workers
- Establishes ongoing feedback loop with education, workforce and economic development partners
- Collectively establishes a powerful industry voice to impact policy
- Influences training programs
- Provides direct access to government decision-makers
The North Jersey Manufacturing Partnership has adopted the national Next Generation Sector Partnerships model. Key roles in the partnerships are:

- **BUSINESS CHAMPIONS**: business leaders who champion the idea of collaborating with peers and public partners to tackle industry issues.
- **CONVENER**: a public partner who provides project management and facilitation support to help the partnership accomplish its goals.
- **COMMUNITY OF PUBLIC PARTNERS**: a nexus of public partners from workforce development, economic development, education, and other key areas who work collaboratively to address the expressed needs of industry leaders. Public partners refrain from pushing public programs to solve business concerns and instead attend partnership meetings in listen-only mode to hear challenges faced by businesses and support industry priorities.
